1. Project:	Expansion of the US 158 Multi-Use Path from Gull Street to the Outer Banks Event Site	2. Department	Planning/Public Works	3. Rank (Completed by TAM)	
-------------	---	---------------	-----------------------	----------------------------	--

**4. Project Description**

This project involves the construction of a multi-use path on the west side of US 158 from the traffic signal at Gull Street to the Outer Banks Event site.

**5. Type of Project or Acquisition**

<input type="checkbox"/> Replacement	<input checked="" type="checkbox"/> New
<input type="checkbox"/> Renovation	<input type="checkbox"/> Expansion
<input type="checkbox"/> Equipment	<input type="checkbox"/> Land

**6. Project Justification**

This represents a portion of the Board's recommended project to extend a multi-use path along the west side of US 158 from Gull Street to Baymeadow Drive as part of the SPOT 4.0 process. This is a high pedestrian area during events and a safe pedestrian path is needed to connect the Event Site with points east including many beach access parking areas and Jennette's Pier. If funding is allocated for this project as part of the SPOT 4.0 process, staff would recommend modifying this request to provide matching funds to construct the remainder of the project to Baymeadow Drive.
